

MICAELA PREMAT

Full-Stack developer with Front-End affinity

+45 91 77 80 04

micapremat@gmail.com

Copenhagen, DK

Experience

Appvestor APS.

Frontend developer

11/2022 - 08/2023

Copenhagen, Denmark

- I worked on a project from scratch With VueJs 3 with the Pinia store. We developed a web application to work with users mobile applications. We used tailwind to manage styles and responsive design..

Danaide S.A

Full-Stack developer

09/2020 - 06/2022

La Plata, Argentina

- I contributed to two different projects involving the management of urban cameras. I started working as a frontend developer with VueJs 2 and after a few months I started to work on the backend as well, with .Net and relational databases with MySQL. I also undertook role of team leader for a time.

Corsisa S.A.

Full-Stack developer

03/2020 - 07/2020

La Plata, Argentina

- I helped develop a dedicated CMS using Angular and Yii2 to manage logistics for one of the largest food production companies in Argentina, facilitating the coordination with its network of store providers.

About me

I am a proactive, creative, organized person. Always willing to learn new skills. I firmly believe that work in a team is very important for project development and for personal and professional growth.

I have worked on several projects where I designed and developed user-friendly interfaces, implemented responsive designs, and integrated frontend components with backend APIs. I have extensive experience in HTML, CSS and Javascript, and have a keen eye for detail when it comes to creating visually appealing and intuitive user experiences.

As full-stack developer, I also gained expertise in developing scalable and efficient solutions, implementing RESTful APIs, and working with databases.

Education

Multimedia Design

La Plata National University

Studied up to the 4th year

University programming analyst

La Plata National University

Studied up to the 3th year
